____ x Item ____ x Item ____ x Item ____ x Item ____ x Item

Please send a detailed stand layout plan along with your order.

We will mail you a written confirmation of order as soon as we receive your request.

Video material PAL	<input type="checkbox"/>
Video material NTSC	<input type="checkbox"/>
Video material other format	<input type="checkbox"/>

Terms and Condition of Rental

1. Subject Matter of the Lease

Equipment shall be rented out only under the terms and conditions set out below. The following terms and conditions shall be acknowledged as contractual at the latest upon delivery of the equipment to its place of use. The subject matter of the contract is constituted by the equipment detailed in the delivery note.

2. Period of Rental

The period of rental shall be calculated in days/weeks. Days begun shall be counted in full. The period of rental begins with the arrival of the equipment at the place of use; it ends when the equipment arrives back at the lessor's premises. Should the return of the equipment to the lessor be delayed beyond the period of rental originally agreed, the rent shall be recalculated accordingly. The minimum period of rental is one day.

3. Shipment and Transfer of Risk

Shipment of the equipment shall be effected at the expense of the hirer by means of the lowest-priced mode of transport, unless the hirer has expressly stipulated a particular mode of shipment. The cost of a transport insurance policy taken out at the request of the hirer shall be at the hirer's expense. The transfer of risk shall come into effect at the time of collection or delivery (delivery note) and end upon return or collection of the rental equipment by the lessor.

4. Safeguarding the Equipment

The hirer undertakes to secure the equipment rented against loss or damage for a maximum of 48 hours following the end of the event. The hirer shall thereafter be liable only for any loss or damage caused by wilful intent or gross negligence.

5. Insurance of the Equipment

In order to protect himself from the consequences of loss or damage, the hirer should take out an appropriate indemnity insurance.

6. Use of the Rented Equipment

The rented equipment is the property of the lessor. The hirer must treat it with all due care, perform all duties connected with the possession, use and preservation in good repair of the equipment, and follow the lessor's recommendations with regard to its maintenance, care and use. The equipment may not be sublet. The hirer must keep the equipment in his own direct possession and only use it at the agreed places of use. The hirer agrees to enable the lessor to inspect the equipment at any time.

7. Guarantee

The lessor shall be responsible for ensuring that the rented equipment is in good working order at the time of the passage of risk. Any further claims are excluded as follows: should, at the time of the passage of risk, the equipment rented have a defect rendering it unsuitable for use in accordance with the terms of the contract, or reducing its usefulness to an extent equalling unsuitability for use, the hirer may either rectify the defect, exchange the defective equipment or rescind the contract as he deems fit. The rent shall be reduced accordingly, proportionate to the time taken to restore good working order. The lessor shall only be made liable for damages to the hirer while using the hired equipment if and as far as damage to property was caused intentionally or through gross negligence on the part of the lessor or his vicarious agents, and if and as far as injury to life, body or health was caused at least through the negligence of the lessor or his vicarious agents.

8. Liability of the Hirer

The hirer shall be liable to the lessor for all damage arising out of the improper use of the rented equipment. The hirer shall be liable for the accidental loss or accidental damage of the equipment. In the event of an actual total loss, the hirer must indemnify the lessor for the replacement value.

9. Licences

Where video and audio systems are operated, the image and sound reproductions played by the hirer are permissible only in accordance with the terms and conditions of the respective licence holder. In the case of computer systems, the software supplied may be used only on the individual article of equipment for which it was provided. Such software may be used only under

the terms and conditions notified separately by the licence holder. In the event of the improper use of image and sound material as well as software, the hirer shall indemnify the lessor for any claims to damages the licence holders may file.

10. Rescission of the Contract by the Hirer

If the hirer withdraws from the rental contract for reasons for which the lessor is not responsible, 30% of the value of the order will be charged to the hirer as flat-rate damage compensation. If notice of rescission is given less than four weeks prior to the commencement of hire, 50% of the rent shall be due and payable; less than two weeks before, 75%; and less than one week before, the full 100%. The hirer reserves the right to prove to the lessor that the extent of the loss was smaller.

11. Third-Party Rights

The hirer shall be liable for all charges, claims and rights of lien of third parties in connection with the equipment hired. He is obliged to notify the lessor and furnish all necessary documents without delay if, during the life of the lease, the equipment is nonetheless taken in execution or in any other way claimed by third parties. The hirer shall bear all costs which may become necessary in order to secure the discontinuation of such interference by third parties, in so far as such interference was not directed solely against the lessor.

12. Delivery

The agreement of a date for rental is subject to the punctual availability of the given equipment for delivery. Unforeseeable events for which the lessor is not answerable, irrespective of whether they arise with the lessor or one of his suppliers, for example strike, lockout, damage resulting from an accident, stoppages, etc., entitle the lessor to rescind the lease or postpone the commencement of the lease by the duration of the hindrance, whereby the hirer is not entitled to claim for damages.

13. Provision of Security

If the agreed rent should exceed the amount of 2,500 euros, the lessor is entitled to demand a payment in advance amounting to 2/3 of the agreed rent. Irrespective of this, the lessor may demand that the hirer furnish a security deposit equalling the current market value of the equipment. The security deposit shall be refunded without interest to the hirer upon expiry of the lease and return of the equipment to the lessor.

14. Payment

The rent, plus value added tax, shall fall immediately due and payable without deduction upon invoicing. Should the due date of payment of the lessor's invoices be overstepped by more than five days, the lessor shall charge interest on arrears of 12 per cent above the discount rate of the European Central Bank as from the due date of payment. The hirer may only offset claims of the lessor, or exercise a right of retention, if the counterclaim is undisputed or has been pronounced legally effective.

15. Return of the Rented Equipment

The hirer must return the rented equipment to the lessor upon expiry of the life of the lease without delay and at his own expense and risk.

16. Late Return

Should the hirer fail to return the equipment on time, he must indemnify the lessor for all damages incurred as a result. If the equipment is not returned in proper condition, the hirer must pay the full rent for the time required to restore it to such condition, all further claims for damages of the lessor notwithstanding.

17. Final Provisions

No verbal agreements have been reached. All amendments to the present lease must be made in writing. Should any individual provision of the lease be or become void, the validity of the remaining provisions hereof shall remain unaffected. The place of performance shall be the lessor's domicile. The venue for the settlement of disputes for both parties has been agreed as the nearest local first instance court or first instance district court within the jurisdiction of which the lessor's domicile falls.

In the event that equipment is leased outside the Federal Republic of Germany, German law shall apply in addition to the terms and conditions agreed herein.
